## ***ADDENDUM***

June 11, 2019

### **ADDENDUM # 2**

#### **Bid 19C8, Electrical Connections for Portable Classrooms**

**DUE DATE: FCPS Main Lobby, Tues., June 18, 2019, prior to and time stamped no later than 2:00 P.M.**

This addendum is being issued to provide additions, corrections, clarifications and answers to certain questions raised referencing the original bid packages and any resultant contracts for the above bid.

#### Clarifications:

- The existing conduit and single phase wiring that services the two existing portables may be reused provided the contractor upgrades the wire to support the three-phase needed for the proposed transformer.
- The contractor may if the conduit size is appropriate remove all wiring and install larger wire to support the proposed 3 phase transformer.

#### Clarifications to Scope:

1. The Contractor must review the connectivity requirements of the receiving site(s) power connections and advise the Owner of, if any, locations not complying with NEC or the local code authority. **Bidders shall review the existing installations and price the work so any revised electrical services meet code requirements passing final inspections. Many of the overhead electrical wires are to be moved by this contract to support the demolition of portables as noted in the bid documents. In the even such wire relocation causes the need for an electrical upgrade, the cost of such electrical upgrade is to be included in this proposal / bid.**
2. The contractor shall review the project with Frederick County or Frederick City Electrical Inspector(s) prior to beginning work. **This requirement is intended to insure that the electrical contractor has a meeting with the electrical inspector to insure the inspector's requirements will be met as needed to support final inspections and occupancy.**

Thank you for your interest in bidding with Frederick County Public Schools and we apologize for any inconvenience this may have caused.

Sincerely,

*Bill Meekins*
